

CANTEEN INFORMATION

IMPORTANT !

The Canteen will no longer be taking IOU's for lunch orders.

Unfortunately this is due to having to chase and follow up monies owed.

For special circumstances such as a student leaving lunch at home and families unable to organise lunch to be sent in by someone, the offer of a Jam or Vegemite sandwich for \$3.00 will be available. To be paid at the end of the day.

Families who miss the 8.30 am cut off for online ordering will need to organise their child's lunch themselves. The app will not let you process lunch orders after the cut off time.

If you forget to put money in your lunch order bag / envelope you will be contacted to organise lunch to be dropped off for your child **or** the money for your child's lunch order be dropped off the same day **prior to 1pm**, then your child will receive their lunch order.

For any families who are still using the wrong App (My Kids Lunchbox), since March instead of My School Connect, and who have money owed to them by MKL. This money can no longer be refunded by the canteen.

CALENDAR

2021 TERM DATES

TERM 1 - Thurs 28th Jan to Thurs 1st Apr
TERM 2 - Mon 19th Apr to Fri 25th Jun
TERM 3 - Mon 12th Jul to Fri 17th Sep
TERM 4 - Mon 4th Oct to Fri 17th Dec

JUNE 2021

2nd- Yr 4 Zone of regulations

3rd - 11th - Book fair

7th, 9th, 11th, 16th, 18th,
21st, 23rd - Yr 4 Swimming

9th & 10th - Foundation
Weather Incursion

14th - Queen's Birthday

15th - Yr 1 Zoo excursion

16th - Yr 4 Open afternoon

18th - Yr 2 Open afternoon

24th - Yr 5 Open afternoon

25th - Last day Term 2

TRYING

FARWELL MISS HUNTER

Miss Hunter is leaving us to go to Westernport Secondary College after 8 yrs with us at Woodlands. Miss Hunter's new role as Art Teacher will be a refreshing change and the lucky students at Westernport Secondary College, we know will just love her to bits as much as we do. We wish her all the very best for the future.

2022 Foundation Enrolments

Over the last few weeks we have welcomed over 100 new families into our school to hear about what Woodlands has to offer and to tour our facilities. These information sessions are a great way of showcasing our school and it fills me with a great sense of pride as we show prospective parents what our school is all about and how wonderful our students are. If you have a child starting in Foundation next year, please get your enrolment form in as soon as possible to avoid missing out on a place.

NAPLAN

Congratulations to all of our Year 3 and 5 students who recently participated in their NAPLAN assessments. All students worked very hard in the lead up to NAPLAN and went into the assessment period with a positive attitude. Regardless of individual results, we are very proud of each and every student for trying their best.

THRIVE in Local Sport and Recreation Clubs

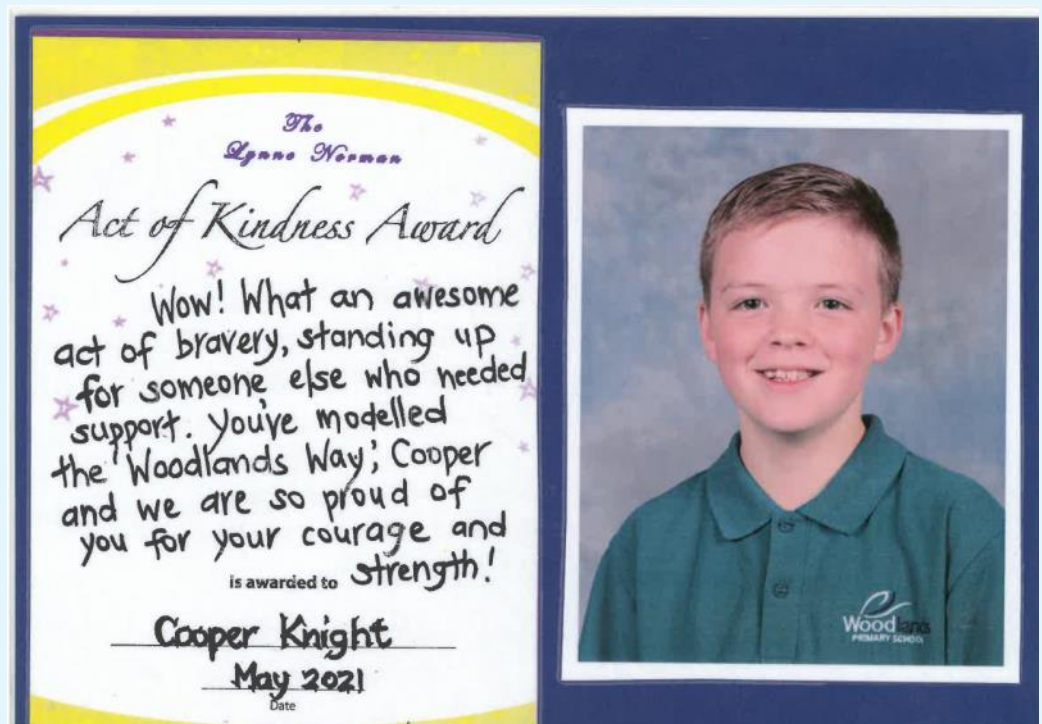

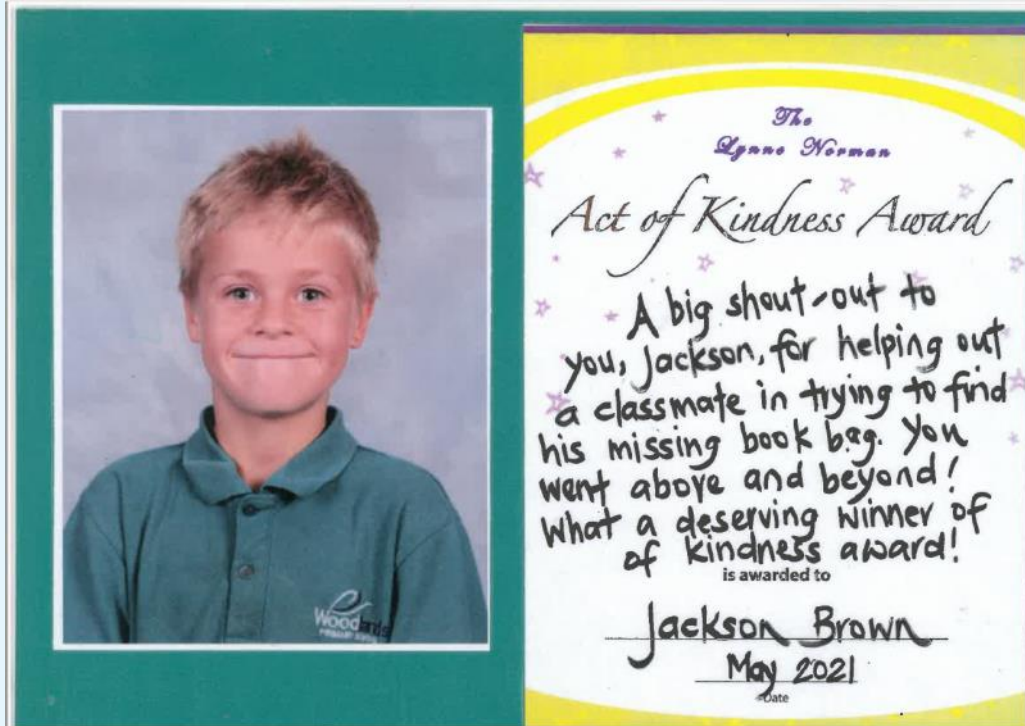

On Tuesday I attended the launch of THRIVE in our local sports and recreation clubs at RSEA Park in Moorabbin. This exciting expansion of THRIVE into the local community is something we should all be very proud of.

Below is a link to a promotional video that features a number of our students. You may need to copy and paste this link into your web browser:

2022 FOUNDATION ENROLMENTS

If you have a little one ready to start foundation next year, please come into the office and collect an enrolment form. If you are unable to make it to the office please call and we can send one home with your current child.

We ask that you fill the form out thoroughly and return to the office as soon as possible with all required documents. Due to zoning and capping of our numbers, it is very important we have the sibling enrolment forms as soon as possible.

If you know of any friends who are **not** currently at Woodlands and also have a little one ready for Foundation next year, please ask them to take a look at the tour dates on our website. They can then call the office to book in for a tour to receive an enrolment form.

Enrolment forms cannot be collected for friends.

Book Fair is Coming!

Lamont Book Fair is back again this year from the 7th – 11th June. Students will be given time to browse available books during their library time and have the chance to make a wish list with a few of the titles they are interested in.

On the back of the wish list is a visa form that, which if you wanted to, can be filled in to buy any of the books you may wish to purchase for your child instead of visiting the book fair yourself.

Cash payments will be accepted, however EFTPOS is our preferable method at this time.

Feel free to come to the Library/Resource room at the following times:

[Monday to Friday 8.30 – 9.00 am 3.30 – 4.00 pm. This excludes Friday afternoon.](#)

Note: Due to Covid-19 you will need to scan the schools QR Code s you enter.

New Uniform

We are excited to add two new pieces to the uniform, a beanie and scarf.
Both we be available from the Bounty Shop in the next couple of weeks.
The Beanie will be \$19.95 and the Scarf \$27.95

Free Information Night

THRIVE has been developed locally to support our Schools, Early Learning Centres, Sport and Recreation Clubs. This THRIVE presentation will explore the science of Positive Psychology and how the THRIVE actions can be used to boost happiness, resilience and achievement.

At EMC we want to create an environment where students are healthy, capable, and confident and feel empowered and supported in their future aspirations. To achieve this, we are developing a 10 year Strategic Plan **Shape EMC 2030**.

Our aim is to hear a variety of voices to identify the goals and actions that we can all contribute to, to support our students to thrive in their personal lives and our local community. Stay for an interactive activity session to have your say!

Just a reminder to pack a change of clothes in your child/s bag . During the winter months there is more chance of accidents occurring and it is always good to be prepared

At EMC we want to create an environment where students are healthy, capable and confident – and feel empowered and supported in their future aspirations. To achieve this, we are developing a 10 year Strategic Plan - Shape EMC 2030.

This Plan will go beyond what is 'required' of a government education provider. It will set out what can be done to inspire and support our students to prepare and transition to fulfilling educational and employment pathways. It will be ambitious – and require a whole school community commitment – because that's what our current and future students deserve.

To develop the Plan we are inviting input from everyone in our school community - current and future. We want to explore ways to connect our students within the local community and are seeking input from education and service providers, community organisations and local businesses. Our aim is to hear a variety of voices to identify the goals and actions that we can all contribute to, to support our students to thrive in their personal lives and our local community.

This survey asks for:

- * a bit of information about you
- * your thoughts about EMC at present and
- * your ideas for EMC looking towards 2030

Please take around 5-10 minutes and complete this survey by 5pm on Friday, 11 June, 2021.

Copy and paste the following link into your browser

<https://www.surveymonkey.com/r/SHAPE-EMC2030>

This survey is being administered by Cochrane Research Solutions, a consultancy engaged to support EMC with this project. We take your privacy seriously. All responses will remain anonymous and confidential. Responses will be reported and aggregated and you will not be personally identified unless you choose for your details to be disclosed. [View the EMC Privacy Policy.](#)

Thank you for sharing your views and assisting to shape the future of EMC.

WHATS BEEN HAPPENING IN SPECIALIST CLASSES

STEM

Grade 3 Coding and Programming The Grade 3s this term will be learning about the importance of computer science in our world. They will be identifying certain inventions and technology that we use in our everyday life and what they were built for. Students will be developing their knowledge in coding and programming and participating in activities to enhance their skills in this area. Grade 4 Sustainability and Chemical Science The Grade 4s will be learning about sustainability and chemical science within the theme of plastic and waste production. Students will look at the

effects of our human footprint on our Earth and analyse ways we can keep our world healthy. Grade 5 Building and Engineering The Grade 5s will be learning about engineering and building principles in term 2. They will be identifying different types of structures and the processes that are used to plan, design and build them. They will experience a mixture of hands on and technological activities including designing with 3D software. Grade 6 Robotics Programming The Grade 6s will be learning about programming and creating solutions in robotics this term. The students will use their computer science skills to program EV3 Mindstorm robots while learning about the importance of programming within their everyday lives and future careers.

ICT Computer Classes

This Semester the Foundation and Year 1 students will be using the Microsoft Word program during classes. They will be doing simple activities like - writing their name, - changing the font, - changing the size of the letters, - changing the colours of the letters - inserting online pictures into their work. They will also be introduced to a typing program called Typing Tournament. This program will help them use the correct fingers for each letter and how to position their fingers correctly on the keyboard.

Media

This Semester the Year 5 and Year 4 classes that do media will be rotating around 8 different activities to produce their work. The activities include: using a Virtual Reality system to play and participate in some games; using digital cameras to take photos around the school; using a 360 degree camera to take photos around the school; using a Lego to create Stop Motion video; using coding programs to move a Sphero around a race track; using coding programs to fly a drone; using iPad app programs like Action Movie, Garage Band, Video Star and iMovie; creating their own Media News program and recording it in the Green Room.

Visual Arts Newsletter- Lisa Block Term 2

Foundation Students will continue to develop their skills in drawing techniques. They will be exposed to using different mediums to create a finished piece of work. They will continue to revise basic skills and techniques they were taught at the beginning of the year. The pencil is the primary drawing tool. Students will be encouraged to hold their drawing tools correctly. It has been noted that many students hold their pencils in their fist when they write or draw. Correct techniques will be revised to allow them to draw more fluidly and give them more control over their work. Students will continue to develop their

own ideas, experiences and observations to create their own individual pieces. Students will be involved in Art Appreciation lessons. They will take on the role of being an artist and an audience through these lessons.

Year One students will continue to explore a variety of different materials, equipment and media. Drawing and painting skills will be taught. Techniques will be shown to create works that are original and personal. Fine motor skills and activities will be encouraged which will involve cutting, tearing, tracing, folding, scrunching, twisting and pasting. The elements of design will be a key element in work produced through line, shape, colour form and tone.

Collage will be introduced and students will create their own masterpieces. Students will learn the basics of shading and colouring using a variety of media.

Year Two students will continue Art Appreciation lessons. The students will be encouraged to use various thinking skills which will assist in achieving individual potential. We will be participating in fun drawing games. Collage and painting with water colours will be

introduced throughout the Term. Students will become more familiar with the colour wheel. They will make and mix colours to create different shades of colour.

Artists will be introduced and studied through our Art Appreciation activities. Drawing Techniques will continue to be taught. (Applying highlights and shadowing to their work)

Visual arts for the Senior school. (Mr Clough)

Grade six students began term 2 completing their 3-dimensional dry felting characters. Dry felting involves pushing fibres of combed wool into a base fabric using a felting needle, which is made with tiny barbs on the sides. In this case students used polystyrene shapes as the armature to overlay with felted wool.

Grade six students have begun creating their own version of a "Ming Vase" by making their own "Scratch it" paper, cutting it to shape and completing their own designs. If time allows, the grade 6 students will also be introduced to "**Pointillism**," a technique of painting in which small, distinct dots of colour are applied in patterns to form an image.

Grade 4 students will have a focus on paper craft in term 2. They will complete a picture of "Magpies over a dam" using oil pastels for the background then drawing and painting magpies of various size in different poses. Students will be introduced to the art of mosaic, creating portraits using mosaic paper tiles. For the following project the students will be using the technique of "**Quilling**." This is the art of rolling, shaping and gluing paper to create an image.

Students in Grade 3 will complete a threads and textile activity, creating a picture of an owl by sewing wool and beads onto a piece of hessian. Printing, using print foam blocks will also be introduced to students to create repetitive images. Weaving with wool and paper plates to create a spider web will be another activity for Grade 3 students in term 2.

Performing Arts Newsletter- Angela Muehllechner Term 2.

In Foundation students will be introduced to dynamics in music, loud and soft. We will explore them using percussion instruments, body movement and voice. We will sing songs and listen to music that relates to the inquiry topic Weather. Students will use their expressive skills to make their own movements to music. We will continue to explore drama through play, facial expressions and body movement.

In Year 1 students are learning to read, write and play simple music notation. We use instruments to experiment with sound, dynamics and tempo. We will be having fun singing songs and learning dances including some that relate to the inquiry topic of Habitats. In Term 2 we will look at the orchestra and the instrument families, percussion, woodwind, brass and string. Students will experiment with drama through simple games, activities and short performances.

In Year 2 students will continue to learn how to play the recorder. Please take the time to read the 2021 recorder contract with your child if you haven't already done so. Recorders should be coming home so students can practise their skills then brought back to school on Wednesdays and Thursdays for lessons. The recorder is the best way for students to learn how to read music and an easy introduction to learning an instrument. Almost every year 2 has earned their white loom band for playing Hot Cross Buns and many have the red band for Mary Had a Little Lamb. What a great start we have made to becoming musicians! This term we will be looking at the dancing style of Hip Hop. We will watch and respond to some Hip Hop dancing, learn some moves and the students will choregraph their own dances to perform. We will continue to develop drama skills through games, warm up activities and creating short performances.

In Year 3 we are continuing with learning recorders. Students move through a selection of recorder songs that increase in difficulty. With each new song students are exposed to more complex music symbols and terminology. Each student is moving at their own pace. It is important for students to practise their recorders at home each week. To tie in with the Year 3 inquiry topic of World Geography we will be investigating dances and music from different countries and cultures. We will continue to develop drama skills through games, warm up activities and creating short performances.

Choir – New members are welcome to join and we will be preparing for the Performing Arts Showcase that will be held on Thursday the 12th of August in the evening. There is no audition process all students are welcome but it is important that students are committed to attending rehearsals every week.

Dance Group – This is a small selection of students from years 3-6 who auditioned for a place. We meet every Friday at lunch times and we are working towards a performance for the Performing Arts Showcase on August 12th.

Woodlands Got Talent Auditions

Students in years 2-6 are invited to audition for this year's Woodlands Got Talent. 10 acts will be selected to perform at the Performing Arts Showcase on August 12th. I am looking for students who have a talent in singing, dancing, playing an instrument, drama or comedy. If students are interested it is a good idea to be well prepared for audition week with any backing music or items needed for their audition. Students can audition individually or in a group.

Lost Recorders

If your child has lost their recorder it is important to replace it quickly so they don't miss too many weeks of lessons. We have several spares available for purchase at the school. You can pay \$10 at the school office for a new recorder which includes a display folder. Another option would be to rustle one up from friends or family who may have one they are no longer using.

WOODLANDS PRIMARY SCHOOL NEWSLETTER

Team
Kids

WHAT'S BEEN HAPPENING

With our clubs a hit, students are enjoying a wide variety of activities designed by them for them! Their most favorites of the fortnight have been our Lego masters challenge, making playdough for our sensory zone, and cooking choc chip cookies.

Students this week have enjoyed a new menu with a new and wide variety of healthy foods and have reported their favorites being burrito bowls & bacon, eggs and hash browns.

Students have also been thoroughly enjoying our donation of giant blocks from the school and have been loving making many different creations with them, thank you Mr. Gallagher and Mr. Ameryl!
